

**Thursday, 12 September 2024****16:00 Registration (16:00 - 20:00)****18:00 Welcome Reception (18:00 - 20:00)****Friday, 13 September 2024****08:00 Registration (from 08:00 )****08:30 Opening ceremony - D. Hildebrand & M. Robert****08:45 Session 1. Malformation. Chairs: D. Hildebrand & D. Nguyen**08:45 **L** Commonly overlooked ocular signs and symptoms in Down syndrome. C. Parsa (Brussels, Belgium)08:55 **RF** Congenital ectopia lentis in children. G. Daghoul (Casablanca, Maroc)08:58 **RF** Genotype-Phenotype Correlation Model for the Spectrum of OCA1-associated Albinism. M. Bjelos (Zagreb, Croatia)09:01 *Discussion*09:11 **FP** Optical Coherence Tomography Angiography Assessment in Congenital Aniridia. A. Dentel. (Paris, France)09:16 **FP** Transcriptome analysis of patient derived microphthalmia and myopia optic vesicles identifies key pathways influencing axial length. D Jackson (London, UK)09:21 **RF** Paediatric disc dilemmas; How we can use technology to effectively safety net. T. Lloyd (Leeds, UK)09:24 **RF** Low vision aids in Pediatric Leber Hereditary Optic Neuropathy: experience of a tertiary center. C. Costa (Coimbra, Portugal)09:27 *Discussion***09:35 Session 2a. Retinopathy of prematurity: current issues and treatments Chairs: A. Daruich-Matet & N. Schalijs-Delfos**09:35 **FP** Enhancing the ROP risk profile through structured evaluation of placental inflammation and uteroplacental malperfusion. S. El Emrani (Leiden, Netherlands)09:40 **RF** DIGIROP-Screen model for screening retinopathy of prematurity: a Portuguese retrospective cohort. M. Goncalves (Lisboa, Portugal)09:43 **RF** Screening at-risk ROP patients: Use of a single small field image centred on the optic disc. Y. Borella (Paris, France)09:46 *Discussion*10:03 **RF** To evaluate the Dutch organization of care of infants who have been treated for severe Retinopathy of Prematurity: a nationwide prospective multicenter study. A. Arends-Tjiam (Rotterdam, Netherlands)10:06 **RF** Postoperative global and perilesional vessel changes in retinopathy of prematurity: a comparison between laser and anti-VEGF treatment. F. Catania (Paris, France)10:09 **RF** Anti-VEGF in Retinopathy of Prematurity: a French experience in micropreterms babies. How does it change our practice? A. Barjol (Paris, France)10:12 **RF** Macular changes by optical coherence tomography after ranibizumab treatment in type 1 retinopathy of prematurity. Hosny R. (Cairo, Egypt)10:15 *Discussion***10:30 Coffee Break, exhibition and poster viewing****11:15 Session 2b. Retinopathy of prematurity: current issues and treatments. Chairs: M. Pompe & G. Caputo**11:15 **FP** Development and validation of a early diagnostic protocol for Cerebral Visual Impairment in extreme preterm infants. M. Vilella (Zaragoza, Spain)11:20 **FP** Outcomes of modified limbal lensectomy-vitreotomy in stages 4B and 5 retinopathy of prematurity with extended retrolental fibroplasia. I. Chehaibou (Paris, France)11:25 **RF** Multifocal ERG showed that macular function was affected in prematurely born young adults. A. Akerblom (Västerås, Suède)11:28 **RF** Refractive error following endoscopic vitrectomy for stage 4 retinopathy of prematurity. K. Williams (London, UK)11:31 **RF** Longitudinal associations between ophthalmological outcome and visual perception in children born very preterm E. Larsson (Uppsala, Sweden)11:34 *Discussion***11:45 Session 3. Metabolic disorders: past, present and future. Chairs: C. Cassiman & M. Robert**11:45 **L** An overview of therapeutic advances in metabolic disorders. M. Schiff (Paris, France)11:55 **L** How to treat retinal dystrophies in CLN? R. Henderson (London, UK)12:05 **RF** Intravitreal enzyme replacement therapy in late infantile CLN2 disease slows down CLN2 retinopathy. C. Priglinger (Munich, Germany)12:08 *Discussion*12:23 **RF** Optic neuropathy in infants: should we stop at MRI? H. Bouvarel (Lyon, France)12:26 **RF** Visual Prognosis in Infantile Malignant Osteopetrosis. S. Kerkouri (Paris, France)12:29 **FP** Systematic study of ophthalmological findings in 10 patients with PEX1-mediated Zellweger. J. Karuntu (Leiden, Netherlands)12:34 *Discussion***12:55 Lunch break and exhibition**

**14:00 Session 4. Retina. Chairs: E. Maka & I. Audo**

- 14:00 **FP** Selective chemotherapy in retinoblastoma treatment in Hungary. E. Maka (Budapest, Hungary)
- 14:05 **RF** How the Covid pandemic helped us to have a retinoblastoma center in Bucharest. EC Nitulescu (Bucarest, Romania)
- 14:08 *Discussion*
- 14:15 **L** The large clinical spectrum of CSNB in childhood. I. Audo (Paris, France)
- 14:25 **RF** Identification of Congenital Stationary Night Blindness in Pediatric Ophthalmology Clinics: Clinical, Imaging, and Electrophysiological Insights. M. Ehrenberg (Petach, Israël)
- 14:28 **RF** NR2E3- retinal dystrophies: a retrospective study from a large French Inherited Retinal Dystrophy cohort. G. Hallali (Paris, France)
- 14:31 **RF** Genotype-Phenotype Correlation in RDH12-Associated Retinal Dystrophy: the Significance of Watercolored Fundi as a Predictor of Preserved Vision. A. Curic (Zagreb, Croatia)
- 14:34 **FP** Visual outcome and ocular characteristic in children with Alagille syndrome. K. Teär Fahnehjelm (Stockholm, Sweden)
- 14:39 **RF** Value and limits of the prolonged scotopic adaptation proceeding full-field electroretinogram and molecular genetic findings to diagnose Fundus Albipunctatus. E. Laumonier (Paris, France)
- 14:42 *Discussion*

**15:00 Session 5. Orbit, adnexae, surface. Chairs: A. Dahlmann-Noor & D. Bremond-Gignac**

- 15:00 **RF** Nasal endoscopic controlled bicanalicular silicone stent intubation in congenital lacrymal system stenosis. S. Markelj (Škofja Loka, Slovenia)
- 15:03 **RF** Orbital abscesses in children: an update on microbiology trends and antibiotic selection. L. Kawar (London, UK)
- 15:06 **RF** To Scan or Not to Scan - A Subdural Empyema Case Series. T. Boote (Glasgow, UK)
- 15:09 **RF** Pediatric Graves' orbitopathy: a case series of 11 children. A. Lachelah (Paris, France)
- 15:12 *Discussion*
- 15:24 **FP** Systemic treatment with Cyclosporine A in children with severe vernal keratoconjunctivitis. Y. Morad (Tzrifin, Israël)
- 15:29 **FP** Side effects of tacrolimus after treatment of allergic conjunctivitis in children. A. Nemet (Assuta Ashdod, Israël)
- 15:34 **RF** Plasminogen eyedrops in ligneous conjunctivitis due to plasminogene deficiency. M. Desira (Marseille, France)
- 15:37 *Discussion*

**15:45 Coffee break, exhibition and poster tour n°1. Poster tour moderators: D. Hildebrand, R. Adrar, A. Daruich, A. Mataftsi, G. Le Meur, M. Tekavcic-Pompe, C. Parsa, C. Gerth-Kahlert****16:30 Session 6. Inflammatory disorders. Chairs: A. Mataftsi & A. Aziz**

- 16:30 **RF** A consecutive case series of paediatric cytomegalovirus retinitis in a single centre quaternary paediatric hospital. O. Warda (London, UK)
- 16:33 **FP** Imaging predictors of time to resolution of macular edema in pediatric intermediate uveitis. C. Barresi (Paris, France)
- 16:38 **RF** Occult capillaritis in pediatric idiopathic panuveitis: a new fluorangiographic prognostic biomarker. F. Catania (Paris, France)
- 16:41 **RF** The step-up treatment approach in paediatric uveitis: Safety and efficacy analysis in a large Swiss cohort. J. Gunzinger (Zurich, Switzerland)
- 16:44 *Discussion*

**17:00 EPOS-WSPoS joint symposium on myopia - Chairs: D. Hildebrand, K. Nischal**

- 17:00 Introduction. D. Hildebrand (St.Gallen, Switzerland)
- 17:05 **L** Models of normal refractive development as reference for myopization. J. Rozema (Antwerp, Belgium)
- 17:15 **L** Does Public Health Policy Play a Role in Myopia Study Outcomes? K. Nischal (Pittsburgh, USA)
- 17:25 **L** From trial to trial: Diminishing effect sizes in atropine trials for myopia control. W. Lagreze (Freiburg, Germany)
- 17:35 **L** Results of French National Survey about myopia: need for further education! D. Bremond-Gignac (Paris, France)
- 17:45 Round table on myopia: Dominique Bremond-Gignac, Annegret Dahlmann-Noor, Darius Hildebrand, Wolf Lagreze, Ken Nischal, Jos Rozema.

**18:15 End of first day****19:00 -23:00 GALA DINNER AT MAISON DE L'AMERIQUE LATINE (upon registration)**

**Saturday, 14 September 2024****08:30 Session 7. Retinal Surgery. Chairs: R. Henderson & A. Daruich**

- 08:30 **RF** Persistent fetal vasculature and familial exudative vitreoretinopathy: comparison of two cases. E. Vermeersch (Leuven, Belgium)
- 08:33 **RF** Laser pointer induced Choroidal Neovascular Membranes in Children: A case series highlighting this ongoing public health danger in children. A Shafi (Wakefield, UK)
- 08:36 **FP** Retrospective case series to describe outcomes of conservative and surgical management of patients with Norrie Disease. O. Warda (London, UK)
- 08:41 **FP** Risk factors for retinal detachment in Marfan syndrome after pediatric lens removal. T. Chapron (Paris, France)
- 08:46 **FP** Complications following vitrectomy for paediatric optic disc pit maculopathy (ODPM). A. di Domenico (Oxford, UK)
- 08:51 **FP** Retinal detachment risk and outcomes in ocular coloboma from a large UK cohort. D. Jackson (London, UK)
- 08:56 *Discussion*

**09:15 Session 8. Congenital and infantile cataracts: intervention controversies. Chairs: MJ. Tassignon & K. Nischal**

- 09:15 **FP** Persistent fetal vasculature: clinical patterns and literature review. T. Hadjistilianou (Siena, Italy)
- 09:20 **RF** Intraocular lens power calculation for optic capture in pediatric eyes. D. Knebel (Munich, Germany)
- 09:23 **L** How to keep the visual axis clear after an early congenital operation? MT. Pompe (Ljubjana, Slovenia)
- 09:33 *Discussion*
- 09:43 **L** Bag-in-the-lens surgery in paediatric cataracts. MJ. Tassignon (Antwerp, Belgium)
- 09:53 **RF** Congenital cataract surgery: Factors influencing successful Bag-in-the-lens implantation in children under 6 years. C. Bonifas (Toulouse, France)
- 09:56 **RF** Post-operative outcomes in bag-in-the-lens technique versus standard lens-in-the-bag procedure in congenital cataract surgery in children under 6 years of age. L. Lequeux (Toulouse, France)
- 09:59 **FP** The Swedish National Pediatric Cataract Register (PECARE): Lessons learned from studies of the first 1000 eyes in the past 16 years. G. Magnusson (Mölnlycke, Sweden)
- 10:04 **RF** Registration of pediatric cataract operations using a new registry: EuReCCa. E. Ghyczy (Amsterdam, Netherlands)
- 10:07 *Discussion*

**10:25 Coffee break, exhibition and poster tour n°2 Poster tour moderators: P. Dureau, A. Bou Ghanam, A. Aziz, D. Nguyen, E. Maka, C. Priglinger, E. Bui-Quoc, C. Cassiman****11:10 Session 9. Neuro-ophthalmology. Chairs: C. Cassiman & A. Bou Ghanam**

- 11:10 **RF** A case series of optic neuropathy caused by vitamin A deficiency in children. C. Bourke (London, UK)
- 11:13 **RF** MOG - associated disease and raised intracranial pressure in childhood. V. Panteli (London, UK)
- 11:16 **RF** Optic atrophy evolution in children with Triple A (Allgrove) syndrome. T. Ben Salah (Brussels, Belgium)
- 11:19 **FP** Modified Frisén Scale grades 1 and 2 are not specific for papilloedema in the paediatric population. A. Houtman (Glasgow, UK)
- 11:24 **RF** Paediatric intracranial hypertension: a case series at a UK Teaching Hospital. M. Seelarbokus (Wakefield, UK)
- 11:27 **RF** Ophthalmic manifestations in pediatric population of Neurofibromatosis-1 in Latvia, multidisciplinary approach. E. Salmane-Sapale (Riga, Latvia)
- 11:30 *Discussion*
- 11:48 **L** How to treat LHON in children in 2024? C. Priglinger (Munich, Germany)
- 11:58 **RF** The internal visual crowding: impact of retina asymetry on vision mechanisms, consequences and how to correct it. M. Kodochian (Beaune, France)
- 12:01 **RF** Ophthalmological Manifestations in KCNQ2-Related Disorders: A Retrospective Case Series Study. K. Mairot (Marseille, France)
- 12:04 **RF** Correlation of disturbances in spatial adaptation of gaze (strabismus) and amblyopia with changes in neuro-reflex excitability and metabolic disorders in PPE. S. Salmanova (Baku, Azerbaijan)
- 12:07 **RF** Medical condition peculiarities among school age children with visual impairment. N. Kuzmin (Cheboksary, Russia)
- 12:10 *Discussion*

**12:25 Assembly of Members****13:05 Lunch break and exhibition**

**14:00 Session 10. Gene therapy. Chairs: G. Le Meur & C. Priglinger**

- 14:00 **L** What's in the pipelines for the next few months? G. Le Meur (Nantes, France)
- 14:10 **L** Surgery for gene therapy: how to reach the target? A. Daruich-Matet (Paris, France)
- 14:20 **FP** A cross-sectional study on retinal dystrophies in children seen over one year in a reference center. G. Mesa (Paris, France)
- 14:25 *Discussion*

**14:35 Session 11. Surface, cornea & Glaucoma. Chairs: K. Nischal & D. Bremond-Gignac**

- 14:35 **L** Classifying corneal congenital opacities. (K. Nischal, Pittsburgh, USA)
- 14:45 **L** New trends in infantile glaucoma. (P. Dureau, Paris, France)
- 14:55 **L** Aphakic glaucoma in children. G. Daghouj & A. El Kettani (Casablanca, Morocco)
- 15:05 **FP** Glaucoma syndromic disorders. Z. Laftimi (Casablanca, Morocco)
- 15:10 *Discussion*

**15:20 Coffee Break, exhibition and poster viewing****16:00 Session 12. Refraction, Amblyopia. Chairs: A. Dahlmann-Noor & C. Gerth-Kahlert**

- 16:00 **L** Cycloplegic eyedrops and side effects. N. Schalij-Delfos (Leiden, Netherlands)
- 16:10 **L** Presenting features, assessment, progression rates and underlying aetiology in infants and young children presenting with high myopia. A. Dahlmann-Noor (London, UK)
- 16:20 **RF** OPHTAMYOP study myopia control in French children treated with defocus DIMS spectacles: interim analysis. D. Bremond-Gignac (Paris, France)
- 16:23 **RF** Visual acuity test, refractive error (without mydriasis) and strabismus in 500 children aged 6-10 years in Poland - are we surprised? M. Szwajkowska (Olsztyn, Poland)
- 16:26 *Discussion*
- 16:36 **RF** CureSight Binocular Amblyopia Treatment - One Year follow up. O. Yehezkel (Ramat Gan, Israël)
- 16:39 **RF** The CroMyop Study: Myopia Progression in Croatian Children and Adolescents and the Development of an Advanced Predictive Model. A. Varosanec (Zagreb, Croatia)
- 16:42 **RF** 0.05% atropine for myopia treatment in Estonia: nine-month treatment effect and tolerability. K. Palumaa (Tallinn, Estonia)
- 16:45 *Discussion*

**16:55 Awards and closing ceremony****17:15 End of conference**

**Friday, 13 September 2024 - Poster tour at 15:45**
